Message from President

Developing an Outstanding Presence as a Destination Company

Approximately seven years ago, we began experimenting with a new store model, adapting quickly to environmental changes such as population decline and the COVID-19 pandemic. The core of this transformation has been the shift towards “Destination Stores.” Our group has been remodeling and expanding fresh produce sales floors while working on product improvement initiatives, such as the renewal of our private brand. All these efforts are aimed at transitioning to a store model where the unique product and category offerings themselves serve as the motivation for customers to visit. This shift, “from number of stores to product strength” as a fundamental policy, has increased our store competitiveness, allowing us to attract customers from beyond our usual market area and expand our support base.

Additionally, our newly formulated “Valor Group New Medium-Term Three-Year Business Strategy” (FY2025 to FY2027) continues to set “Connect 2030—Connecting Products, Customers, and Society” as its strategic goal. Through its implementation, we aim to grow into a “Destination Company.” These plans are steps towards clearly defining our future vision as “Valor Group Vision 2030” and “Sustainability Vision 2030.”

To achieve “management that is conscious of the cost of capital and stock prices,” we will also focus on management with a greater consciousness of the balance sheet.

The Valor Group will continue to strengthen its governance system and develop alongside all our stakeholders. We ask our shareholders and investors for their continued support and look forward to your expectations for our further challenges.

President & Director

Takayuki Koike

Operating Results by Segment

※ For details, see p.19 -

- **Supermarket Business:** Increased profits due to the strong performance of existing stores (+5.6%) and the success of new stores in Osaka and Aichi Prefectures.
- **Drugstore Business:** Increased revenue and profits driven by the remodeling of 30 stores and the strong performance of PB products, leading to higher sales and improved gross profit margins for existing stores.
- **Home Improvement Center Business:** Despite the subsidiary acquisition of HC Ant and deepening market dominance, revenue and profits decreased due to a decline in customer numbers.
- **Sports Club Business:** Increased revenue and reduced operating losses due to the increase in the number of members.

* "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29) and others have been applied from the beginning of FY2022
